

Please leave the NJ Do Not Call alone. I am a single mother of two boys and during dinner, putting my children to bed or dressing my children for school I would get telemarketing calls. I am 45 years old and can decide if I want to have companies calling me to sell me things I don't want, or not. If I wanted these calls I won't sign the DO NOT CALL. Thank you for your concern but I can decide what I want and don't want.
